

2012-IET-title-list

IET - The Institution of Engineering and Technology				
Item title	E-ISSN	URL	Subject(s)	Impact factor
Electronics Letters	1350-911X	www.ietdl.org	latest research in electrical and electronic engineering	0.970
Micro & Nano Letters	1750-0443	www.ietdl.org	micro and nano issues spanning from fundamental understanding to experimental demonstrations in the disciplines of engineering, physical, chemical, biological and material science	1.167
IET Circuits, Devices and Systems	1751-8598	www.ietdl.org	electronic circuits, devices and systems theory, simulation, design, analysis and applications	0.548
IET Communications	1751-8636	www.ietdl.org	the theory and practice of systems, networks and applications involving line, mobile radio, satellite and optical technologies for telecommunications, and Internet and multimedia communications.	0.751
IET Computers & Digital Techniques	1751-861X	www.ietdl.org	digital system-on-chip design and test of electronic and embedded systems,	0.629
IET Computer Vision	1751-9640	www.ietdl.org	original research papers in computer vision	0.969
IET Control theory & Applications	1751-8652	www.ietdl.org	system modelling, identification and simulation, the analysis and design of control systems (including computer-aided design), and practical implementation	1.717
IET Electric Power Applications	1751-8679	www.ietdl.org	wide range of applications and apparatus in the power field.	1.212
IET Generation, Transmission & Distribution	1751-8695	www.ietdl.org	current practice and future developments in electric power generation, transmission and distribution	0.856
IET Image Processing	1751-9667	www.ietdl.org	generation, processing and communication of visual information	0.758
IET Information Security	1751-8717	www.ietdl.org	information security and cryptography	0.892
IET Intelligent Transport Systems	1751-9578	www.ietdl.org	ITS integrate telecommunications, electronics and information technologies - in short, 'telematics' - with transport engineering in order to plan, design, operate, maintain and manage transport systems	0.476
IET Microwaves, Antennas & Propagation	1751-8733	www.ietdl.org	all aspects of microwave and antenna engineering and propagation.	1.077
IET Nanobiotechnology	1751-875X	www.ietdl.org	research and emerging technologies in nanobiotechnology	2.077
IET Optoelectronics	1751-8776	www.ietdl.org	optical and optoelectronic materials	0.989
IET Power Electronics	1755-4543	www.ietdl.org	power semiconductor technology applications, circuits, devices, performance management, control and simulation techniques	New
IET Radar, Sonar & Navigation	1751-8792	www.ietdl.org	theory and practice of systems involving the processing of signals for radar, radiolocation, radionavigation and surveillance purposes	0.981
IET Renewable Power Generation	1752-1424	www.ietdl.org	renewable energy technology, power generation and systems integration.	1.255
IET Science, Measurement & Technology	1751-8830	www.ietdl.org	science, engineering and technology underpinning electronic and electrical engineering, nanotechnology and medical instrumentation	0.706
IET Signal Processing	1751-9683	www.ietdl.org	novel contributions in signal processing	0.794
IET Software	1751-8814	www.ietdl.org	all aspects of the software lifecycle, including design, development, implementation and maintenance	0.620
IET Systems Biology	1751-8857	www.ietdl.org	intra- and inter-cellular dynamics, using systems- and signal-oriented approaches	2.384
IET Wireless Sensor Systems – from March 2011	2043-6394	www.ietdl.org	research, engineering, technological developments, innovative deployment of distributed sensor and actuator systems.	n/a
IET Electrical Systems in Transportation – from March 2011	2042-9746	www.ietdl.org	all aspects of electrical power systems in modern transport applications including generation, storage, distribution and utilisation	n/a
